Which of the three is worse; But all of them are bad enough To make a body curse. You're riding out some pleasant day, And counting up your gains: A fellow jumps from out a bush

And takes your horse's reins, Another hints some words about A bullet in your brains. Tis hard to meet such pressing friends In such a lonely spot;

It's very hard to lose your cash, But harder to be shot. And so you take your wallet out, Though you would rather not. Perhaps you're going out to dinc-

Some filthy creature begs You'll hear about the cannon-ball That carried off his pegs, And says it is a dreadful thing For men to lose their legs

He tells you of his starving wife, His children to be fed-Poor little lovely innocents, All clamorous for bread-And so you kindly help to put A bachelor to bed.

You're sitting on your window scat, Beneath a cloudless moon; You hear a sound that seems to wear The semblance of a tune, As if a broken fife should strive To drown a crack'd bassoon,

And nearer, nearer still, the tide Of music seems to come. 'There's something like a human voice, And something like a drum; You alt in speechless agony, Until your car is numb.

Poor "Home, sweet Home" should seem to be A very dismal place; Your "Auld Acquaintance" all at once Is altered in the face. Their discords sting through Burns and Mour Like hedge-hogs dressed in lace.

You think they are crusaders, sent From some infernal clime, To pluck the eyes of Sentiment, And dock the tail of Rhyme, To crack the voice of Melody, And break the legs of Time.

But hark! the air again is still, The music all is ground, And silence, like a poultice, comes To heal the blows of sound; It cannot be-it is-it is-A hat is going round!

Not pay the dentist when he leaves A fracture in your jaw, And pay the owner of a bear That stunned you with his paw, Or buy the lobster that has had Your knuckles in his claw.

But, if you are a portly man, Put on your flercest frown, And talk about a constable To turn them out of town; Then close your sentence with an outh, And shut the window dewn!

And if you are a slender man. Not big enough for that, Or, if you cannot make a speech, Because you are a flat, Go very quietly and drop A button in the hal!

already restrated system; while under the strengthening life giving, vitalizing influence of Galvanism as applied by this beautiful and wonderful discovery, the exhaused patient and weakened sufferer is restored to former health, strength dasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives, consists a the fact that they arrest and cure disease by einserid application, in place of the situal mode of drugging and
phasicking the patient, till exhausted Nature sinks hopeisessly
ander the infliction.

They strengthen the whole system, equalize the circulation
of the blood, premote the secretions, and never do the slightest
injury under any circumstances. Since their introduction in
the United States, only three years since, more than

ENTIRELY AND PERMANENTLY CURED, when all hope of relief had been given up, and every thing classes tried in vain! To illustrate the use of the GALVANIC BELT, suppose To illustrate the use of the GALVANIC BELT, suppose the case of a person afficied with that bene of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, atimulants are taken, which, by their action on the nerves and muscles of the stemach, affirst tenererary relief, but which leave the pattent in a lower state, and with in juried faculties, after the action thus excited has ceased. Now compare this with the offert resulting from the application of the GALVANIC BELT. Asks a Dyspeptic sufferer, even in the worse symptoms of an attack, and simply tie the Relt around the body, using the Magnetic Fluid as directed. In a short period the inneasible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence oack again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO FRADLICATE THE DISEASE OF YEARS.

Sident, New Jersey, July 12, 1848.

DR. A. H. Christie—Dear Sir: You wish to know of mowhat has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For shout twenty years I had been suffering from Dyspersia. Every year the symptoms become worse, nor could to be him parmanent relief from any course of medical treatment whatever. About feartern years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumathm, which for year after year, caused me indescribable anguish. Farther: in the winter of '43 and '40, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. My nervous system, was sentarously prestrated, and as my Bronchitis became worse, so should my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other National states of the second of the seco WHOLESALE DEALERS,
